**3 Steer Calves suitable for 4-H Club work**

**22 Cows and Heifers, close to calving or with calves at  
foot**

**8 Two-year-old Heifers**

**12 Yearling Heifers**

These are big, western-type, rugged cattle with lots of bone and substances and easy fleshing. They've got smoothness and quality too and it's a herd that has always been headed by strong breeding bulls. The cows are good ages and include individuals and their descendants that have been purchased from Colorado State University, P. S. Miller, John R. Cummings & Son and University of Nebraska herds. About one-third of the cows selling are daughters of C B Gold Max 7th, the Iowa State Fair grand champion bull. Well over half of the cows will either have calves at foot or be close to calving to the services of W S Stamp 3rd by Norseman Stamp by the Perth reserve champion and top selling bull, Norseman. The rest of the females have been mated to KEENE RIDGE CONTROL, our outstanding junior herd sire by W S Stamp 3rd and out of a Roan Beauty dam by C B Gold Max 7th.

Keene Ridge Shorthorns have shown and sold well at Western Shorthorn Association shows and sales and at the annual National Western stock show in Denver. It has been a source of supply for top 4-H calves and everything sells T.B. and Bangs tested and fully guaranteed.

## *Standard Guarantee*

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller. Cows with calves at foot even though bred are not given any guarantee.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
5. All animals are sold to comply with the laws regulating Tuberculosis and Bang's Disease of the state or country into which they may be shipped.
6. Certificates of registry and transfers will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record of sire and dam, as well as service date.
7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off.
